

Appl. No. 10/683,722

Amdt. dated July 6, 2005

Reply to Office action of April 7, 2005

REMARKS/ARGUMENTS

Reconsideration of the application is requested.

Claims 1 - 5 and 7 remain in the application. Claim 5 has been amended. Claim 6 has been canceled.

More specifically, claim 5 has been amended to correct an obvious typing error.

Claim 6 has been canceled in an effort to expedite the application. The "outward rounding" of the roof slopes is a subgeneric feature. The broader claim 1 clearly encompasses any such variation of the more basic concepts of the invention.

In light of the cancellation of claim 6, the drawing objection under 37 CFR § 1.83(a) and the rejection of claim 6 under 35 U.S.C. § 112, first paragraph, are now moot.

In view of the foregoing, it is believed that the application is now in condition for allowance. The issuance of a Notice of Allowance for claims 1 - 5 and 7 is solicited.

If an extension of time for this paper is required, petition for extension is herewith made.
